- Provide 46 clean water wells built in remote communes in Ca Mau. Here the water source is unsafe so people have to buy water to drink from the

boats selling clean water. Each well needs to be dig from 110 to 130 m, so they require a water pump. After the trip to collect 46 water wells, TBF saw the poverty of families who had to borrow to buy water pumps even though we had donated clean water well. From now on TBF will give water wells and water pumps to families to ease their burden.
